COACHING FOR EDUCATIONAL EQUITY

A Journey of Interruption, Transition and Transformation

If you answered 'yes' to any of these questions then CFEE is the seminar for you.

This 5-day residential seminar helps participants depart from business as usual by providing the time and space necessary to reflect upon what it means to take up equity work in their local context in a thoughtful and proactive manner.

While inequity takes many forms in our schools, this seminar focuses on race because achievement data often shows race to be a greater predictor of success than any other indicator. Even though it is an issue that dramatically affects the lives and education of children in our schools, race is one of the topics that we most avoid as white practitioners.

By the end of this seminar you will be able to:

- **GROW** a deeper awareness of institutional racism and its effect on teaching and learning;
- **ENGAGE** in difficult conversations about race and dominant culture;
- **INTERRUPT** inequity and oppression in your school and district;
- **BUILD** alliances across difference to create a more equitable reality.

SEMINAR DATES:
June 27- July 1, 2016
